

**Surface to Surface Inc. [STS] is pleased to announce that an agreement has been put in place with Halliburton's (NYSE:HAL) Baroid Industrial Drilling Products [Baroid IDP] services line of BAROID, to be the exclusive dealer worldwide for STS Products.**

This agreement further enhances Baroid IDP's comprehensive line of drilling products specifically engineered to optimize performance and reduce end-user costs.

The comprehensive Baroid IDP product line with the concept of Engineered Fluid Solutions for each and every drilling situation and now, with the proven "Best in Class" STS Mixer line, will provide improved drilling performance by providing:

- Faster yield (reduced mixer cycle time)
- Optimal yield (reduced material usage)
- Optimized hydration (enhanced drilling performance)

Baroid IDP's laboratory scientists and application specialists have validated the improved integrated performance of various Baroid IDP drilling products and STS's patented '4-point' shear mixing process.

Contractors can now get the highest quality drill fluids and mixers with just one call.

Baroid Industrial Drilling Products supplies drilling fluid additives and mixers through a world wide network of Authorized IDP Retailers. To locate IDP products please contact your local IDP Field Representative or call Baroid IDP at (877) 379-7412 toll free, or (281) 871-4613 for retailers in your area or visit [www.baroididp.com](http://www.baroididp.com).
